## EXPERIENCE

### Freelance

May '20 - Present

Independent UX/UI designer responsible for creating promotional content for a small business owner. Responsibilities include meetings with the client to discuss current business needs, coming up with various design ideas on how to satisfy those requirements, and finalizing and delivering the materials. New designs led to 50% increased revenue for the client within 30 days.

### UI Designer, Life in Motion Project

Sep '19 - Nov '19

Designed a web platform for end-of-life planning that consisted of all the key flow steps using a wireframe template. Performed interviews and client presentations after each major project step. I completed the project within the required timeframe and client budget constraints.

- Prepared and executed the research to identify potential application audience and their top interests;
- Produced the design style based on the research results;
- Performed exploration to identify a visual style best fitting for the design of the web platform;
- Created high fidelity designs for each screen and presented it to the client. The first round of the designs was accepted by the client with minimal updates;
- Provided recommendations to the client for future enhancements.

### UI Designer, Course Work, Flatiron School

Jun '19 - Sep '19

Designed and developed two mobile applications, one for tracking the local entertainment events and another one for finding micro-volunteering opportunities. Completed all the major steps of wireframes to deliver to the final products.

### Office Manager, Advance Express Inc., Burr Ridge

Feb '18 - Feb '19

Transportation company

Performed all the office management tasks related to the daily business operations.

- Directed activities related to dispatching, routing, and tracking transportation vehicles;
- Performed all the payroll duties;
- Ensured that all the deliveries were met without delays;
- Maintained a database with key information such as insurance, mileage, overhead costs, billing, truck routes and various logistical details.

### Attorney, Prim Ltd, Belgrade

Apr '02 - May '16

Company providing Electrical Engineering Solutions

Worked as an attorney on creating, reviewing and interpreting documents to the clients. I wore many hats and served as the point person for all incoming client communications.

- Built and managed relationships with the clients, including all the direct communications as well as providing updates to their contracts;
- Worked with multiple clients simultaneously and within tight deadlines;
- Served as a liaison among all the levels of employees in the firm.
